## About the 2012 Zurich Lectures Series

### Trauma and Beyond: The Mystery of Transformation

In these lectures, Dr. Wirtz begins with Jung's *Red Book*, in which Jung wrestles with his own dark night of the soul, as she explores trauma's numinosity, the glimpses it gives into a "sense of the Beyond," and the salvific force within the crucible of transformation. She focusses on the archetypal experience of dying and becoming ("*Stirb und werde*"), the movement from fragmentation to individuation, as the retrieval of body and soul after the experience of soul-murder.

Reflecting on the spiritual dimension of trauma

therapy, she also addresses the archetype of meaning and the art of reconciliation in transcending trauma. The lectures dive into the archetypal realm of Kali, Lilith, and Sophia as liberating and empowering images of wisdom for the wounded feminine. Dr. Wirtz also traces the paths of mindfulness, emphasizing the sacredness of intersubjectivity and pure presence, as she circumambulates the mystery and alchemy of healing, the power of imagination and artistic expression, and the healing energy of meditation.

## ABOUT THE SERIES

The Zurich Lecture Series in Analytical Psychology has been established by the International School of Analytical Psychology Zurich (ISAPZURICH) and Spring Journal Books to present annually new work by a distinguished scholar who has previously offered innovative contributions to the field of Analytical Psychology by either:

- bringing analytical psychology into meaningful dialogue with other scientific, artistic, and academic disciplines;
- showing how analytical psychology can lead to a better understanding of contemporary global concerns relating to the environment, politics, religion; or
- expanding the concepts of analytical psychology as they are applied clinically

Each year, the selected lecturer delivers 4 lectures over a 2-day period in Zurich based on a previously unpublished book-length work. This book is then published by Spring Journal Books in a book series of which Nancy Cater, Ph.D., and Murray Stein, Ph.D., are the series editors.
